Stone-Carrier
Air-Conditioning System

The control panel features several circular gauges and indicators. A central inset shows a hand operating a control lever. The panel is labeled with 'Stone-Carrier' and 'Air-Conditioning System'.

This section contains a CD-ROM drive, a floppy disk drive, and several other electronic modules connected by a network of cables.

A large, dark, rectangular component with multiple connectors on its top and bottom edges, likely a hard drive or a specialized controller.

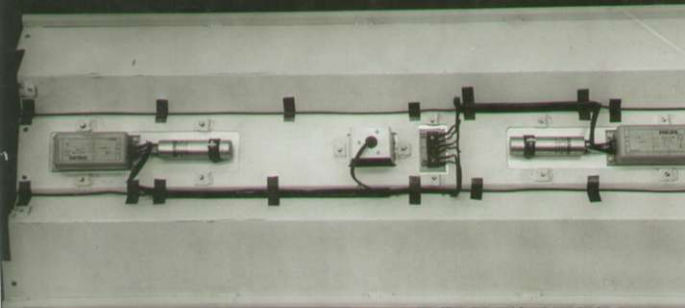

A row of four floppy disk drives, each with a 3.5-inch floppy disk inserted into its tray.

A complex arrangement of cables and connectors, including a sticker with the Spanish flag and the text 'GOBIERNO DE ARAGON'.
