Figure 4

Figure 1

1. Draw a line of length 100 mm. Divide it into 5 equal parts. From the first and last points, draw lines at an angle of 30° to the horizontal line. From the division points, draw vertical lines to the top line. Connect the top points with a smooth curve. This is the plan view of a cylinder.

2. Draw a line of length 100 mm. Divide it into 5 equal parts. From the first and last points, draw lines at an angle of 30° to the horizontal line. From the division points, draw vertical lines to the top line. Connect the top points with a smooth curve. This is the plan view of a cylinder.

3. Draw a line of length 100 mm. Divide it into 5 equal parts. From the first and last points, draw lines at an angle of 30° to the horizontal line. From the division points, draw vertical lines to the top line. Connect the top points with a smooth curve. This is the plan view of a cylinder.
